EXPERIENCE

Web Development Instructor

Evergreen Church • Wheeling, IL

JUNE 2022 – AUGUST 2022

Created an introductory HTML and CSS summer course and taught a class of 6 students user interface design and responsive web design.

Taught how to make a responsive website from scratch, allowing students to showcase personal photos, digital artwork, and video games.

Assistant Chef

Scott Mission • Toronto, ON

MAY 2019

Assisted in making meals and served them for the community.

PROJECTS

Wanderlust Travel App (Case Study)

Designed a travel itinerary app that allows users to explore destinations, save attractions, and plan the most time-efficient itinerary for the trip.

Led product strategy and determined the app feature set through conducting a competitive analysis and user research.

Created a working prototype of the app on Figma following IOS design patterns.

Crossy-Road Game

Developed a 2D version of the popular app, crossy road using Java. Created hitboxes for moving cars, scoring system, added a 2-player gamemode.
